DESIGN SERVICES

With a dedicated and passionate team of designers and project managers, we provide the best selection of office furniture from leading manufacturers. Whatever your preferred taste or style, we have the perfect match. By gaining a key understanding of your business, we apply our extensive design experience and knowledge to fulfil your needs.

Sit back and let our design team manage your office furniture project. We will guide you through the entire process, ensuring that you are happy with the choices made to fit with your buying decisions. Whatever your business size or sector, we will work with your budget, ensuring that you are delighted with the results.

You benefit from access to our 2D layouts and 3D rendered visuals, which provide you with an overview of the finished design. This way, there are no unexpected surprises as you understand precisely how your new office furniture will look once installed.

2D & 3D LAYOUTS

Our 2D layouts provide a fantastic way for you to visualise the design of your new office furniture before completion. Our team of designers will discuss schemes with you once they have measured the space.

The site survey, space planning and 2D layouts are free of charge and all part of the process, showing precisely how the proposed office layout will look.

3D-rendered visuals provide an outstanding way for you to view the design and layout of your new office furniture scheme. Why settle for the details on paper when our 3D-rendered visuals illustrate a complete walkthrough of the space, bringing every aspect of your new interior to life.

Here you will be able to see the setting as it will look for real, down to every little nuance and accent. 3D architectural visualizations are the way to go when you want a 100% understanding of the look and feel of your new office furniture layout.
